My Root Fear:

Going to Mexico

So that's where people are most afraid.

As they are most..

 Loving 

But not affirming themselves as is

Please love them!

That's why the name Corona. We always guide ourselves.
I started feeling she was from Spain. Then I felt an urge going to Chile.
And now I faced the deepest fear of humanity in the depth of our spirit.
Which is the Mexican people which are so loving but sorry not affirming
themselves as wonderful human beings.

From this: Many terrible things happen.
And various conditions not compassionate.
But you can also look at the color and art.
You can also look at the food.
You can also listen to the music.

You can also feel them.

Without judgement.

World spirit clear.
I now deserve my Corona.
