

# Desire

The Universe is asking what you desire. And wishes nothing else than for you to receive it. So you need to develop taste in alignment with what you prefer. Because if you desire a variety of things or partners then your energy will be scattered and you will connect with exactly that.

So the more true, secure and in a good relationship with yourself the better the Universal response it will be. So you see you give yourself everything from giving yourself to you. True you. Be true and honest in relation to yourself and everything conspires/connects as for this to become a reality. You make yourself by being yourself without shame, guilt or fear. And automatically become attractive to what you desire.

When it comes to partner. You must release all ideas of what this partner will look like, where they are from, their current financial status, their living conditions and feel for what is coming without effort. No chase. No hunt. No performance. Just self affirming worthy and deserving. And you are a magnet to what is actually the absolute best for you in all aspects.

Do not act on impulse. Do not be like a kid saying yes to what is frustrated and stressed. Remain calm. Remain joyful and in peace. Whatever is meant to be will be. If something comes close to what seems to become something remain in this mood all the way. If it doesn't work out? Let it go. Something or someone more matching your desire will come. The need makes for confusion, it stems from confusion and originates from poor self awareness. Which is judgement in some form. So deal with the contradictions and come closer to a general well being of authentic deserving nature and a corresponding manifestation will happen.

No luck. No chance.

All self affirmed universal creation of love connection. L'Oreal - Because!

You are worth it 

What is bad about you? Nothing.

That's all perception. Which can be transformed and modelled after your unique authentic nature which cannot be compared. So be you. Own you. Be free.

Feel free. Feel good. Affirm all positive.

Pause and breathe. Look at the signs.

What are they saying? Are the giving indications which correspond to the desire?

There are always more details to everything which can give away a false sense of self trying to come in contact now that you begin to feel Universally attractive.

Trust your intuition. Do not judge. But be polite. Say no thank you. And wait for what is right..

You will feel that. As you are already in touch with your true self.. Good things come to those who wait. In faith. Love makes it happen. Trust love 💖

You want someone who loves all of you for you. With love in focus. Not some specific aspect. This way.. All aspects become a bonus which is how love works. It's a never ending bonus game 😊

Best friends. Romantically involved. With benefits of wonderful giving and care.

That's lovely!

What is mutual. As a foundation..  
Is equally grateful for one another.

With a desire to become more as a couple and connect deeper in love. Which cannot reach a limit. And never gets boring. When both share the expansive adventurous ambition coming from the soul intention.

Which you is. You do not have a soul.  
You is, soul, love. Being. Free. Worthy.

Love cannot judge. So dream and fantasies.. It becomes your reality.

As you affirm it ✨

*I love you! Thank you! More please!* 💖👼

*Everything I desire comes to me for me..  
And we share everything.*

Almost 😊😘💖

*I am so good! Am am so kind! I am so giving! I am so worthy! I am so beautiful!*

*..We meet. In joy* 💋

*I am perfect, just the way I am feeling good waiting for you.. You are my treasure*  
🌸

*You are already inside me. We are one.*

I love you 💕

Let the affirmation be affirmed with a good sensual feeling of things about to happen.. And do not worry at all.. This is key 🔑💕

You can do this my dream being 🪐

To give yourself the dream and the feeling is receiving. As simple as that..

What do you wish for? 😇

I love cute and fun 😊

Dreams come true 🎉🌟🎉

What you send out is from your heart. And in sorrow and great need? You are not ready yet but still attract situations and interactions as to learn your own ways. What you truly desires gives joy.

And give is give 🥰

God. Is the feminine fluid abstract omnipresent energy of love. This energy knows all you do and all you feel. It's just like being monitored continuously regarding everything. But cannot judge. And only wants you well. As it wishes to give you all as you is this energy. There is no separation at all. So you is God. And you know this by feeling and connecting intuitively thus giving you exactly what you need where you are in emotional comprehension as to realize yourself as much as possible.

Which is all good. And becomes better.

Forever. This is universal creation. A flower of love which unfolds more and more becoming more and more of what it is in all new fresh, all loving manifestation.

This means it takes care of all history automatically. Which includes all types of disorders if you trust by connecting and affirming. No limit. The only limit is a judgemental thought that defines something stagnant. And that is something that cannot ever exist in the entire Universe.

Change is inevitable. What are you asking for with your general state of feeling? More good or more to feel sorry for? Do you feel sorry? That's OK. Cry. But then come back to feeling a good positive expectancy all open as to receive what is meant for you without borders in the world of illusion.

*It always gets better. See the connections and signs.. Learn to be understanding and not judgemental. And all good is coming 🌸*

*Everything is connected and happens for a reason. You can trust and count on that.*

*You have a purpose. You have a destiny.*

*Be a part of it. Or do it next time. Can you be absolutely certain about that happening?*

*I cannot guarantee that.*

*Many souls are waiting for the human experience. Way many..*

*You are promised.*

*You get what you feel you deserve. Automatic lover in juste and fair game.*

*No cheating.*

*Be true.*

*Be you.*

*..a martyr is someone still holding anger and sorrow. Bitterness and judgement. Which makes for tension. Coming from unworthy. Which becomes competitive without humility. And creates suffering in false self reward. Brake-ups in various constellations. Couples. Countries. Etc. Same expression but in different perception of influential manifestation.*

*All for a greater good. Ego winning ain't soul. So things fall apart.. If you are worried 'bout you? Know that Love can't be. Ever.*

*Which is soulful spirit of unconditional, non-conceptual, free, giving love 🌸*

*Light. Affirm this.*

*I am ✨*

*(A relaxed heart not stressed is attractive together with a mind which has gone thru and learnt about Universal attraction. So there is no way to do this wrong. But you might receive something you feel does not resonate with you authentically? So be*

clear and true about what you desire. No blame. You give yourself and others what you choose to become)

Free will 🕊️💕💕🌸

And also: You got this 👍👉🏆🙏

Thank you for your contribution. It is highly appreciated and will be highly rewarded.

Rest assured promised soul being of love.

Love.. Is coming 🌸💕💋🔑🗝️👼🥰🌟🙏

🎉 : 🧠 = thinks : 💕 = knows

☀️ = IS = You 😊

Tip: If you meet someone whom is amazing at what they do as in who they us? Do not entertain the reacting of: Anything other than =

I wish I could help them become 💕🙏💕

Be divine please 💎

(One last time, U get watt U give)

I stretch. I breathe in specific patterns with given intentions. I sit alone in peace and love just being.

But I never Yoga.  
That's bullshit.

So understand what religion is.. What is a mental concept of rigid structure?  
Anything held in justice afraid of change.

Judgement.

Afraid of true self. Afraid of love.

Let go 🌸

If you do not find a good feeling breathing deep while thinking you can hurt yourself and others.

What about all other interaction.  
What relationship comes first?

Right here: 💖 That ain't ego.

*I forgive all. They know not what they do..*

*/ Conscious Awareness*

*Coming to comprehension of universal creation is personal and painful. Pain = Gain. Good rendition. Turning stones.*

*Enabling life. For a world of love 🌸*

Thank you 💖 🙏 💖 Sanna 🌸

I ain't white! I am 🌟

It's like knowing what is what and being real about it. That's all!

You are always welcome to try again.  
Did you cheat on me? Try elsewhere.
