

## The Omega & The Alpha.

The feminine is all giving. Alpha.  
The masculine is all taking. Omega.

And together they make for rebirth. Regeneration. As the energy eventually cannot give itself anymore when the time has come to leave what was.

Women are naturally attractive. This is because they are masculine. And need to be as to more easily be given what they need as to conduct from what has been given a new life. Giving birth to a child which is feminine in nature not yet developed in terms of cognition.

They are the black hole.

Men long for love and wish for a true connection most of all in all of their quests. And thus makes them feminine as the power going forward. Getting excited and rigid as to release themselves into the woman or else a baby won't be made.

They are the star.

– What do you mean? Women can also be on stage and sing?

Do you believe that we are here on this earth to become pop idols? Or is the game of love actually about love? To be as good as you can in relation to a true authentic self image which will connect you and your twin flame as to create a very inspiring, fun, loving, sweet family.

No no no.. Life is all about financial opportunities and big private jets and so on..???

It's all good! But what about the foundation that makes for a generation actually healthy in terms of giving what they truly have as to make for a future generation taking care of themselves and also this planet. This requires a little universal creation knowledge. To see what is what. So who attracts who then? The feminine goes after the masculine. In a joyful quest doing everything for love.

And the masculine simply sucks them in when the time is right. Which can be a compromise. Or when it simply cannot help itself. And by that I mean universal creation. And a new galaxy is born, from the intense energy of astral love connection.

Who is this person? To whom? In terms of physicality and age? = Does not matter at all. Language? Nationality? Gender? = Does not matter at all. It's all about love. And reproduction is necessary for survival of the species but not necessary for love. So same sex relationships are simply just love like all else.

It starts with the 1. Getting eating by the 0. And that is penetration. In whatever which way you enjoy that. We wish to eat each other. We love to kiss each other all over. We love to eat each others words. We love to eat each others voices. We love to eat each others energy. We.. LOVE EACH OTHER! As much as possible!

Without resistance. As we are meant to be. The twin flame relationship is all about destiny. So when we stay or become authentic we will inevitably connect. If society has guidelines of shame, guilt, fear. That we choose to follow? We will have a hard time accepting this relationship. From immaturity. And for someone very much connected to themselves? Could mean a suicide. Because they are so sensitive and feel when there is a compromise or if this is the one. And truly does not desire anyone else than the one twin flame. As they priorities love above all. But enjoy sex.

So the idea of what this should be. Is something that should be dropped. Drop all ideas. Relax. And trust in nature by connecting to all good feelings. Like feeling worthy. Feeling deserving. Feeling generally very good about yourself in terms of your physicality as well as your emotions and mental states. Be true. To you.

And a dinner is on the way! A dinner that will feel sooo good. Ain't nothing wrong with that. All inclusive. So not just about sex. More so focused on a secure. Stable. Comfortable. Intuitive. Deep. Sensual. Mature. Love..

Mmm. So good!

It's always been like this. A chess play. Light and dark. Light begins. But both wins. But both wins.

We love everything about each other.

So it does not mean a definite same sex relationship. We just love all about us. This is the intention of having a human experience on the world of love. The lowest density planet which naturally becomes the most sensitive in relation to all. Which requires the most challenging conditions but also the greatest reward in terms of sensuality. So nothing happens without a really good intention. God is good. God is great. God is Love.

Worry? That's the oscillation of being nervous thinking it won't happen and feeling that it will. Both are exclusive to each other as all contrast is. Which makes for differences between the couple but all in perfect match just like a mirror of love. That! Is beautiful creation! Wonderful. Cannot go wrong. And all in joy becomes more of itself. Making for the couple without shame, guilt and affirmed fear to deepen everything in all aspects.

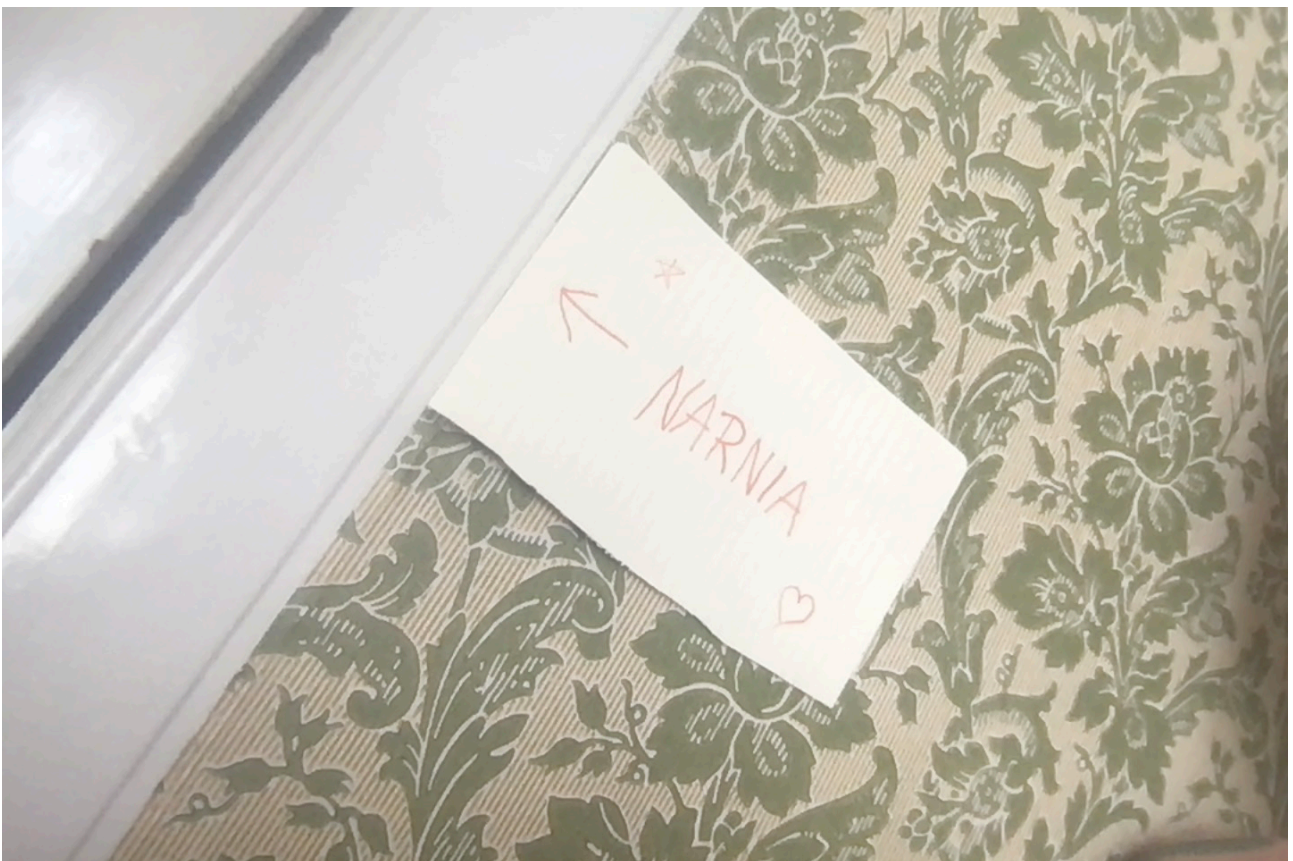

I feel so proud for writing this! And I do not feel any particular universal connection as I do it. Because I am this now. I am the game. I am love. I was intended to be born as such. But I had to learn. From others mistakes, that I made my own. To make diamond out of coal. In pressure and to receive the most wonderful release. And also be able to give that to her. What's in a million universes wrong with that??? Nothing. And so dark energy exists. As nothing. To make freedom a reality. Yet in sunshine.

OMG! This is gonna happen. It's gonna be wonderful! Beyond anything! And this is where I live. With a hint of sorrow as it does not happen right now. But that is human. And comes from the feeling of knowing which we all feel. But sometimes do not trust. As we believe the mind putting a slight brake on things. All in love for us to not get carried away. And spot our lover down there from the edge of the cliff screaming I'm coming sweetly believing we can fly. Even if we connect by that conduct we shall surely both die. We will still connect! In

spirit! But loose all the wonderful things that can happen living as humans. Having a human experience.

And for a very long time I have been so sure that she can see what I write. Every word. And she can! But not visually. But in spirit. And by that I mean that I begin to feel her being very close. And that's the ticket going nowhere yet giving all. Like receiving the train station allowing for the possibility to go anywhere for free.

The other night I was so afraid! I could hardly move. Because I thought she was in my closet. And I could feel her calling me to go in there. Late at night. But that was just a test. The fear was never there. It was me feeling nervous. A lot! Trick of the mind. Exercise. Nobody is crazy. But love is abstract and creates these experiences for us to decode. To comprehend emotionally.

Not so much rationally. Look at this! This was a purely inspired creation. It just came over me and I did it. I did not understand why? I just saw a bit of humour in it. But afterwards I experienced being intensely nervous at night. I am Leo. She is a Cougar. That's a wonderful blend don't you feel. I need security. Stable love.

No whimsy fun weekend. I ain't looking for that. I wanna become more and more. Which is not possibly with a new woman every other week. That's just superficial. And so she sees what I write by my own persuasion. The guidance coming as inspiration for both of us is scripted destiny all together. We share destiny. So one is best to believe that. Tension takes is away. Naturally. Because the ultimate satisfaction is connection which is the most wonderful release. But we need tension as to come together as this indicates being apart. How else would that function? In a world of love functioning on love.

I'm gonna take a hot shower now. I need that. I am very excited but tired at the same time. That's the most demanding experience of all as it easily becomes stress. Trying to calm oneself yet also allow for high vibes. That's not easy. Which means that living all ecstatic won't make it happen. And neither will defeat.

BRB. Sweetie.

..pleasure yourself while thinking and feeling for her. Like I did just now in the shower. All in peace. All in my heart. With my hands on my knees sitting the the floor. Keeping fresh. Keep good. She comes as she ain't got no choice. From you feeling good about yourself. Where ever you are.. Strut your stuff.

– Yeah! I've been doing that getting with girls for years

I have not. I wish for love. I put love first. As I wanna connect deeply before anything else. Not in the superficial. That's wonderful but means nothing and leaves me empty without love. It's a beautiful day to day. I see the leaves are about to come. Spring love. La primavera. Sash! Listen to that and imagine a hardcore gang bang.. It should not match. Truly. So what makes her come to me:

Is me being ready. Which is me feeling good about myself and having my priorities correct. That's all. And be that not feeling ashamed or guilty over anything. You cannot own defeat and expect success. You are not afraid. But admit to being nervous or fear is a perceived reality.

With negative consequences actually not being ok with being vulnerable as in humble and kind. A lover.

If she feels like you ain't worthy of her. She ain't the one. But the thing is. Regardless of if she is or not?

Let her go..

And continue living good.

She is the finish.

Believe it.

Trust it.

Thank you!

Not hard to get. Not easy like sleazy. She is a lot like you. Very much butt do not eat poo. A perfect match! :D

Very close. Closer than you think. Feel her. By feeling not her. Feel you in love. Loving yourself. As she comes.

TODAY!? – Drop that.. Live. Live life. Everything happens for a reason. Just don't invest in treason. You can bite her like Captain Ass Crack Sparrow. When all day not living down low.

Have friends. Visit places. Do it all with her in mind. But in wishful thinking. Wonderland. Appreciate all. And all is given. You do not have to drill a hole in the wall and have sex with the house no.. But love everything. As she is for you everything. She is locked up. Just like you. But you are the knight in shining no armor. So you gotta feel free.. To be. Which naturally gives enjoyment.

So who is the Alpha? Who is the Omega? Both are. In a dance of astral connection all in love. A galaxy about to be born. For real. This is how they come about. And when you leave. It's yours. How about that? POW! Love grand!

Oh yeah.. As a reward for effort made. On huge conscious aware love shared by both for a very long time. And then!

We do it all again. But all new. Just like waking up in the morning seeing a different kind of rough in her hair from last night. And she wonders if there is some kind of trickery you getting more and more handsome each day..

You can get super fat together. All love.

You can go for anorexia. All love.

You can become whatever you wish! Do whatever you desire!

All love.

The best part is:

You continuously heal together.

Like for real.

Mending each other physically.

Mentally.

Emotionally.

From actually not engaging so much but just loving each other which you cannot help to always do and do more.

Like..

The entire universe.

The library opens at 14 today.

Imma go there and upload this.

By that time I will have some money as well.

At about 15-16 Imma visit Lisbeth.

With a print of this.

And by that all is well.

Because I am conscious awareness bringing light into dark. And she will surrender to truth. It's not like she must. She just does. Naturally. And you will receive your greatest love. The finish. Living good. From now on.

Good job sun!

So it's all about a report.

Kind of..

An essay.

Of clarity.

For you and for me and the entire human race.

Thank you for clearing my name.
