

# Know Love

If I question myself as God?  
I question life to some degree?  
As life is love. Which is God.

The more religious the less spiritual.  
The more spiritual the less religious.

A religion is an ideology. Which is a theoretical concept. Which is a book with words. If someone claims that to be a spiritual concept they do not understand what spiritual means. As it is not visible.  
And therefore not a concept at all.

Just like one single dot in the center of a page is. As even the page is a material concept.

To identify is God I say: I am Love

Nothing truly matters. Because if so there would be judgement. And not forgiveness.  
Everything and everyone gets a second chance. But depending on what we did going against love? We might get a second chance in hell. That's a challenge.

That's a star dying. But energy can never die. So it becomes the core of a planet instead. Fully aware. Experiencing all.  
With the least amount of freedom. With the greatest desire of all which is to feel free.

So confess and free yourself now. Do not take anything with you as you leave. As this will contradict what you is, and create this consequence. Naturally.

The child is closest to God. Because the child does not question its own nature. That's later in relation to a bunch of ideas.  
The child knows love by feeling it without question. The adult questions love as they think about it. What is important. What is most important of all?

Is to know that God is Love.  
And Love is not sex.

Which makes love free and natural. Between us all from not fighting it in confusion within. I am love. Is the only identity you need. Then you have. And then you do. Like have a body which is holding a book. And what is in the book you can agree to and make into a practice. But never be.

Identifying incorrectly. Is dishonor of God.

Which you know. And makes you feel like you need to defend that. Which should be the most obvious indicator? As what is free in nature does not need to defend itself to just be. It just is..

God knows. Love knows. The heart knows. Spirit knows. Soul knows. Truth knows. The universe knows. All one and the same.

For infinity.

I would never say: I am man?

I say: I am a man

Which describes distance which can only be possible for a true perspective which just is and then experiences. Like being love and then experiencing being a man.

I am love in joy not having a problem at all is true nature. With yourself. Then there are some problematic circumstances created in the world. But I cannot identify with them. And sure enough, these circumstances are creations made by people having problems with themselves.

That the kids need to deal with?

This should make things clear for you now??

That if you defend yourself. You are offended. And if you are offended? You are not true to yourself. And then you make other hurt from that pain of self neglect. As to make them feel what you feel. Not taking responsibility at all. For what you do to yourself as to try and tell you, what you do wrong? But not being wrong. And that's the core issue. Identifying with what you do. As in this being who you are. And don't wanna give that up. As you will feel like a humiliated loser. Which in reality? Is your salvation.

And you win all. As you gave it all up.

Like I had to do. For you.

Not because of..

I take care of what I feel is necessary to take care of for a greater good. I don't judge. I understand. I forgive. I release.

Which is all for the greater good of all 

I have felt all the wrong doings. And worked to make myself world famous as to tell you this. Because I wish for all to live a good life.

It is not easy to live in the now with all of your resistance making me feel so far ahead. That's why I smoke. To calm my nerves from fighting life being held back.

That is super mega ukulele idiotic.

So what do you say? You don't need to catch up.. Life is not about stress. What you need to do is to let go. And naturally things will become fantastic!

Despite everything that has happened. I am proud of my mother for trying her best to fix what wasn't right. It could have been better if she made that about herself. Identifying correctly and separating what she is and what she do. And not trying to fix a broken child telling her what's actually messed up with herself.

I don't accept any destructive behavior. But I understand and thus forgive.

I wish to meet the love of my life and to see me children. And that won't happen if I don't love all of me. Because I just don't want anybody? Like some body??..

I want her  The greatest love of all

I hear Witney now.. Because it's happening for me. Thank you God! 

Soon I won't be in need of sleeping next to this with double blankets one of 'em being a weighted one. With pajamas.

Can you see how arrogant and in complete lack of humility someone is sleeping outside in the snow. All from refusal to drop what was and find gratitude for what is.

They really need to starve.

They are behaving like the Kings & Queens of the Universe. By self defeat. Successful losers. That's a confused human being.

It's completely contradictory. Total eclipse.

Almost no connection to love at all.  
But think so.

How can I make you all proud?! I can't!  
It's impossible. Unless you get inspired and see what I see. Because it doesn't matter what nationality she is!

Let her be the most wonderful woman held in honor for all of you! There are only two parents. I do not wish for a lab generated lady. But she can be like the whole world anyway 🌸💖🌟

I was a guest yesterday at an Afghani get together. 1000% loving men. 1000% wonderful food. I ate three times. I ate candy. I drank green tea. I had a cigarette. I made new friends. I felt grateful!

And I left feeling empty.

Because that's how drained I am.

Which is what I used to make into me not worthy of being here. All confused.

But I now know better. And drop all focus on myself. Connect with love. And see her in-front of me in the morning. Perhaps letting the sun in wearing my tshirt in the morning.

As I start a chainsaw to cut thru my leg to check if I'm dreaming.

You can fall in love with an appearance.

I have been totally amazed sometimes like this in relation men. It's not jealousy but very close. As I just look at them and wish I looked like that because they are so beautiful. No sexual feelings at all.

Just a very handsome man.

And I believe he feels this way about himself without questioning himself. So there is no arrogance about it either. So the beautiful man I feel like this in relation to is

the secure man. The confident man. Whom is very loving and never makes himself larger than anyone else. That's a divine man.

Imagine being with 30 something like that getting offered fantastic food for free. When you don't have any money or food at all.

That's humbling. That's grace.

Which I really needed. Right where I am as I started packin' to move nowhere getting evicted yet trusting God in absolute conviction that this is all good.

And it simply means that I am getting closer.

To her 🌸

My left arm has been twitching for days. My heart has been like a rock at times. This is not a medical condition and should never be treated as such. This is holding on for life in stress. The only antidote is spiritual. Knowing. Resting assured. Right where I am. Feeling positive expectancy of everything working out. And in communicating this I universally receive what I need. Which is always love.

You can give me a football stadium of cheering men. Completely dismissing the game offering me food and money.

And yet it would leave me empty.

Without her 🌸

When I am with her. Do I tiptoe like a bitch doing whatever she says? Hell no. I ain't no punk bich.. But we won't ever come to that. We are mature and grateful as we meet.

So no problem. But I might focus on your needs a little extra anyway 🌸 because without you I am not truly living.

*Swear to God. In cursive.*

I could visit a Doctor today and say that all I need is love. And the Doctor would say: I can't help you with that.

And that's the problem. That's why I'm not going to any Doctor. Because he will find the reason with made up name yet not ever possible to explain its origin but making it real.

That's believing in a lie.

Nothing else.

It clear to see.

There is a reason yes?  
A cause for a reaction yes?  
You give it a name yes?  
But you don't know what it is?  
And you can't explain why?

Does anyone else hear Circus music?  
I hear one of those flutes you pull up and down! And Krusty the clown laughing.

Doctor death. Killer clown.  
Creating the impossible.

In lack of humility.  
Educated in stupidity.

To feel accomplish and successful in supporting the victim. Giving them drugs and cutting their bodies! Now also supporting children cutting off their genitals!

It does not get more irresponsible than this.  
Complete piss and shit in the face of love!

Held high. By people impressed.  
By a false well acted security.

What someone like this holds against me?  
Is their diploma and education.

What I hold against them is themselves.

Using a mirror. Outside in nature.  
With the sun behind their head.

And I say, look! That's all you need Doc.  
You just gotta believe it. Trust it. By knowing it. Emotionally. Humane.  
Compassionate.

And then you can actually save life's.

Which is your biggest dream!  
But not about you..

Thank you so much! Imagine what might have happen during the night if I never got any food or friendly love. i believe you saved my life yesterday.

Divine men of God 💖 Mashallah, Alhamdullilah 🌸

What all of transmutation.se is about is understanding that we get what we give. Choose to be positive which is asking how come instead of judging. And don't fear anything. Like popping in like the only Swedish guy in a crowd of? Human beings.

If you line up a selection of women for me, to choose from. I will not have it. If you decide over her head going against her free will? You are dead to me. I don't know you.

You do not exist. I walk thru you like smoke from the fire. Smoke is more than you.

I should not even have to explain why.

Freedom is not submissive control. If you touch her body in any form of sexual context you are a demon on earth. Word of Universal power of Love.

Kill me if you wish? As you send a bullet aimed at your own confusion. Being such a great man! Just like the Doctor.

The mothers. The wife's.. of these men.

You are the absolute worst of all.

The highly masculine woman. Almost a man. When supporting this destructive behavior. Or perhaps afraid..

Either way. Irresponsible. Immature.  
Successful losers.

Home is where the heart is.

Life.. Love..

..Returns when you allow for it. When you've done what you can and simply receive without judgement. All in a reflection of what you have created. You get what you give. Feeling deserving. In honesty, humility and gratitude.

Feeling grateful and experiencing strong emotions making you cry of relief is a presentation of your own hold.

Deep gratitude has completion within it. And holds no sorrow or regret. It's all you in relation to yourself. Thanking God is thanking your self in honesty. True self.

When you play false you thank God in overwhelming emotional grace. As you live separated from your true nature. And feel some form of remorse and repent rightfully.

That's normal. Dismiss this and you've got two choices. One is living on the fence feeling anxious and insecure. The other is feeling super secure holding back everything making you a dominating dictator.

We are beings of love. So it's not really that difficult to understand that being love is the best 🌸

I can cry feeling grace. I can cry from gratitude. When I once again think and feel about yesterday when I was offered food and friendship.

That's positive! That's normal. That's love!

And also!

If you make yourself as such an honorable man standing up for women being in need of this like a strong man???? You are the weakest link. Women are not weak in need of survival. The weakness you see in them is vulnerability. Something you might be too hard as to feel.

The feminine survives as a flower.  
The masculine as a cockroach.

Both energies. None of them female or male. The problem is at the core in relation to honor. Honoring love as free is the most honorable. Which is not personal control.

That's Ego. Devil.

What makes the judgement is disbelief. Completely. In relation to change.

In a universe constantly expanding and never for a second the same as it was and ever can become again.

Agree with the Doctor and change for the worse. Or agree with Love and change for the better. Your choice.

Let's say that someone reads this just now and become furious. So they come here to kill me. A guy sitting by a fake fireplace sorting thru some old things packing to move nowhere whom likes to make music and dreams of eating wonderful food with a wonderful best friends he kisses on the lips.

What? Are you trying to tell yourself man?

Anything you need to express as a competitive opinion is all in relation to true self. Which is soul. Which is Love. Which is God. There is no one outside of you to ask anything. Not even forgiveness. You come correct inside out. All you with you.

Man or Woman.

Stop fucking the children. Mentally as physically. Making them spiritually corrupt. As to one day become you! Lead by false self perception in parental "mature???" leadership. That's awful lying cowardly behavior.

- But the book says that?

Do you have a mind of your own?

Yes.

Do you feel emotions?

Yes.

Then congratulations! You are naturally equipped to relate in life making you actually live it.

And from doing so you experience it.

And that a loving treat!

Sure is. As the sun is shining.

I am not sad. Sorry. Angry.

I am just disgusted. By inhumane people making the world a disgusting place.

Everyone knows. By heart.

But are afraid to live free.

And so they follow the herd. Going straight to hell. From devilish behavior which is a free choice. Most in the name of God.

Which enables and gives all completely free of charge for eternity.

But perhaps you think you know better?

People say they understand. As they think about things. Understanding is emotional.

We all have a unique experience. To sum up. God is not religious and never ever will be. That's just the way it is and things will never be the same. Aw yeah..

Mushrooms does not produce a psychedelic effect. It's misconception in relation to truth that makes for a visual distortion and thus an indicator of how confused your are upon this experience. The ones speaking of uncertainty of as to why these effects occur don't know. So why ask them? Don't don't know. And will perhaps study this until they die. Afraid of trying and actually learning from personal experience. Cowards..Trusting God is trusting Nature. And that is trusting Love. What you fear is what you know you will find.. Which is the truth. And the game is over. The game of irresponsible bullshit.
