

Text message to self:

I wish for someone who wants me
Which is someone who desires themselves
As I.. or else we've got ourselves a situation
When love is free 🌸 So please don't judge

Says love without speaking 💖 Be kind 😊 Live in love. Enjoy ☀️ Chasing love?
Love lost? Love is here and now 🕊 Not a single thought necessary. As love just
is.. You don't need to send this. Just receive it. It's not practical to resist.. So give
in 🙌 You want it all. So unget to worthy.. just be. And love it 💖 Thank you! You're
welcome. One and the same, instant manifestation 🎉 Have the pleasure of living.
Well deserved. Do you see now? All the why's? Yes 😊 🌸 Feeling is not the secret.
It's the necessity. I am Christ in flesh. Affirmed by self. When I smile at someone
and they don't smile back? I get richer as I keep that good feelin'. Like giving me
what I need yah mean.. ⭐ Have fun! Together do & whatever 🙌

What is the problem if not receiving? If I receive it I have no problem. Life. I receive
life regardless of my current circumstances. I am alive and I am experiencing life.
Live!

So what's the deal? Don't bargain. Feel free.

Feel free often enough and free you shall be from your own creation. Say 'I am
free' often enough feeling good and you invite opportunities. 'I am good' or even
better 'I am fine'. Fine is a tuning and has no contrast. It has contrasting detuning.
Which are neither good or bad. Just not in tune.

'I am fine'. Makes for feeling good. Combined with 'I am free' makes for 'I feel
free'. 💖 And life is yours to enjoy knowing that things can only become better
from your own attractive energy.

What you state in a positively perceived experienced emotion is what you impress
your mind with. The mind will then give you tasks as to match what you impressed
it with. So the deal is already done. It's given straight away. But lets say the mind
constructs 127 tasks for you which makes for competition in relation to you
believing your own creation. You need to do them all as to feel convinced. You can
look at it like each task is a spot in the sun. And as you do the tasks you eventually
make it spotless. And as you are the sun you simply become what you is in a true
spiritual reflection paired with your material creation. Which of course is connected
to everything that created the spots to begin with which included understanding
and forgiveness. Which is all about the emotional release of the undesired whilst
communicating what is desired. Reclaimed energy and also directed. Like a
cinematic camera now showing all of what you wish to see and no longer tries to
present backwards of what was which is no longer and can never be unless we
recreate it from misunderstanding. And that's necessary as to learn. How else
would that function otherwise? It can't. So judgement tries to make for a hold. But
everything is changing for the better naturally. So the hold will loose its grip all in

good time. From all the positive energy. What is experienced before this happens is uncomfortable pain and depression. From suppression not relating to truth. And makes for a world of hurt that can stretch for thousands of years. In the belief that life is all about suffering. When it's truly a challenging adventure. People not living a life are people not to listen to. They don't know shit. Somebody sitting alone in bliss inside capable of stretching their body have missed all points of living. And are basically on like level one of reincarnation.

That's not a role model. That's not an achievement. And it's actually not spiritual.

What you contribute with in a greater understanding bringing awareness without judgement to the family dinner trying your best to relate in humility is invaluable.

Not just talking but also leading with personal example. And there you go. A recipe for success. Despite what your passion is and what you wish shall happen for yourself, that you will also be able to share with people around you.

With a focus on love as the winner without a name. And reap the benefits of making yourself feel good doing what is needed the most in relation to all that we truly need and also is. Super duper deal! 🙌🌟💖🎉🌸🐟

Wanting to get high all the time is all about relaxation in contrast to tension. That's really all there is to it. Which makes us feel safe. When we do we naturally have faith in good things to come. And thus allow for it without as much effort. It's the effort coming to this experience that is the job. Which one can only know from personal experience.

And makes life functional in terms of truth and honestly living as to live it. That is actually a need. And life is created to Love. Love is God. And so that's all we need.

God created weed and schrooms.

Munk-Dictator-Politician-Yogi..

Shit shut da fuck up.

Worthy and deserving is not the same thing. Worthy you is no question. Deserving is in relation to a general question. Which in reality does not exist without contradiction. Godmode is impartial. Continuous reset. Found be being relaxed experiencing with appreciation. Well deserved is a secure heartfelt sensation without vengeance.

No comparison 🌸 Let life, let love happen.

Game on smile. Game off frown. Cosmic Humour a clear necessity. Spacious living from the inside out. Astral. Intuitive. Humane.
