

Why are some humans sexually attracted to a cold dead body?

Because they believe life to be material. As identified with the body. And by having contact with a lifeless cold body they feel their own warmth.

And believe this to be good.

As life is warmth. Even to the extent that they dismiss the fact that all contraction in the lifeless cold body is gone.

As they lie so much in relation to themselves.

Far far away..

Now home again. Thanks to Leo 💖

You're welcome. I understand..

Just don't do it again!

- That depends. On the parents.
- I was never born evil.
- Evil backwards is Live.
- Is was confused.
- Completely.

No worries. And all is well. Parents.

Jeffrey had an infection in his brain caused in tension by all the confusion in relation to his parents whom caused it from dark self perception. In lack of humility. Turning their back on their son in need. And the product of evil was created. Naturally.

Furious Love.

Makes for some evil shit.

But all is love.

Misunderstood.

PS. Jeffrey tells me he wasn't really attracted to boys. He was looking for himself in the material. Trying to create the perfect image of himself. Which is spiritual.

Now he knows that.

I just had a shave..

To refine the good looking beard I've got.

I could have shaved it off?

But I am not manly in my superficiality.

I am love.

I work and return there.

From and to the heart.

My mind is on you.

What makes for life to happen is to say yes more. To joy initially. Which is freedom from worry itself. And things happen.

That are perceived as good.

God does not give a shit.

Energy works itself out.

Perfect balance.

The perfect body for Jefferey was in pieces. That he tried to mend. From the outside in. The only mistake. And also far away from his true essence, of love.
